### Craftsman at Work

Stan Clarke of \$4 McCann St, Trenton, puts finishing touches on a Bathbon Belleville -Trenton stage couch carving that he has fashloosed in his leisure time. Since retiring two years ago, the Trentonian has carved many pleces, mostly horse-drawn convey-noes. Mr. Clarke, a carpenter and calmbel-maker throughout life, says he started carving because he wants his retirement years to be as productive as possible.

The Society, which held its annual conference here during the weekend, also receives funds from local municipalities to cover local operations and in addition, carding members now a basic \$2 annual feet. cover iocal operations and in addition, cardarying members pay a basis \$2 annual fee. But it is insufficient to keep the books out of the red; the Quinte branch for instance ranks second highest among outlets faced with a deficit in their operations last year. The branch was overdrawn to the tune of \$20.000.

50000.

One potential source of additional funds are the Society members themselves. There are no fewer than 55000 members throughout the province and the \$2 they currently pay is far from belig excessive. An increase of even a dollar would not be puntitive; at the same time the Society will have to review its budgeting to see if it cannot make commonlies without zeriously compromising

IS AT Rollins Lumber!

How long has the idea of owning your own home been in your mind? Well, you've got the right idea . . . and Rollins Lumber can help you make it a reality. The Self-Help Home Plan was designed to help families like yours to own their own home and stay on a budget.

First of all, there is no back-breaking down payment necessary and low monthly payments, possibly less than what you now pay for rent. Secondly, Rollins Lumber will do the hard work of erecting the shell for you and provide quality materials for the home's interior. Then you have the opportunity of finishing the interior yourself and saving several thousand dollars in labor costs.

So, if a home is on your mind, do what many Quinte area families have already done . . . come to Foxboro. Finalize your plans now while mortgage money is available and move in this

## Make No Mistake! HIRE THE EXPERTS FROM ROLLINS LUMBER

Get the most out of summer, right at home, with the addition of a sundeck, enclosed porch or sun room. Rollins Lumber will do the work and you just relax and enjoy the results. Let the sun shine in during the day, and when the sun goes down, entertain your friends in the privacy and comfort of your new room. It's easy to bring a little of the outdoors - indoors ... when you hire the experts.

It won't cost you an arm and a leg either - because experienced workmen will do your job quickly and efficiently, using only the best in materials. You can be sure of an addi-

tion that is built to stay and workmanship that will add value to your property.

Uniroyal wasn't the first to introduce steel-belted tires in Canada. Or even the second, ering its Especially our engineering was bothering its Especially our engineering was bothering its Especially our engineering was between the control of the

## Our construction vs. theirs.

Our construction vs. theirs.

In one respect, all steel-belted tires are the same. They all have steel belts (in mesh form) running around the circumference of the tire. At mong other dividence of the tire. At mong other dividence of the tire. At mong other dividence of the tire. The six they make it very difficult for nails, broken bottles and general highway debris to penetrate through the steel and puncture the tire.

And that's olviously, all to the good. What isn't so good or obvious, is that steel, belief the stiff material it is, on came a fire to ride steel in the steel of th

Tread. Polyester. Steel. Polyester. Instead of just tread, steel, polyester, like

everybody else. Comfort.

You don't have to be an engineer to see that you're bound to get a more comfortable ride with a tire built like the Intersteel. It's like putting a cushion on a hard chiff before you sit on it.

You get the benefit of the chair's support plus the comfort of the cushion.

The Uniroyal Intersteel. The reason you've never seen a tire like it before is because there wasn't one.

And in the long run, that's a very important plus. Simply because, it's something else you don't have to worry about.

As promised, however, there are even more reasons for investing in Intersteels.

## Performance.

The next bus increased performance. Belts on a tire help prevent a tire from distorting when it's moving, in short, they help keep more rubber on the road and allow the treat to fully perform the way it was designed to.

Steel belts do a better job of this than any other material. And in our opinion, Intersteel does the best job of all, thanks to the way it's built.

it's built.

Our polyester layers top and bottom bond our steel belts in place with exceptional firm-ness. Which in turn, helps to hold down the tread even more. The result: Greater steering control. Greater skid control. Better traction.

Mileage.

Lots of people are concerned about pollution. But concern alone won't stop it.

Tests on cars with high emission levels show that an engine tune-up can substantially reduce pollutants. By more than 50% on the average.

So there is something that you can do to fight pollution. Have your car's exhaust emissions checked. If your car needs a tune-up, get one. At least once each year or every 10,000 miles. And urge your friends and neighbors to do the same.

Gold Tops \$65 LONDON (AP) — The price of gold climbed more than \$2 to a record \$55.05 U.S. on London's free bullion market today, and the U.S. dollar weakened on most foreign exchanges.

Britain Backs U.S.

STOCKHOLM (CP) — Britain appears to be with the United States on the other side of the fence from Canada on the question of how to form an international pollution — conjunt authority. Environment Minister Peter Walter of Britain told rivers conference that Britain waste to see existing UN agencies used as much as possible thereby avoiding dupletation of work.

treat yourself to something cool this summer

Remember the 50's? Ice cream cones were a nickel, every girl had a blazer in her closet and short-shorts were just too daring. A lot of things have changed, short shorts became hot pants and matched up with a blazer, they are Summer 72 — the nicest girls are wearing them. The price is slightly reminiscent of the 50's, when you could get a lot for a little."

#### THE INTRIJIGENCER

#### Then and Now

We can well appreciate the fact that there have a more difficult task today teachers have a more difficult wask wousy than was the case some 40 years ago. Re-thring Hastings County superintendent Don Stirling has put it this way: "Things were pretty static when I was a teacher. You pretty static when I was a teacher, you could even use the same jokes in the same place in the textbook year after year. Having to adjust all the time is a wearing thing;

ing to adjust all the time is a wearing thing; it requires a great deal of energy."

The adjustments at times have been traumatic — from a post World War 1 period of comparative tranquillity and simplicity, of adherence to tried and true principles of education and discipline, when student wer and such far off heresies as dissent e unheard of and such concepts as 'open srooms but a dream, on to the present

Today school principals, counsellors and teachers at large must be administrators and psychologists as well as teachers. Before them in class they see young people who have grown up in the era of protest — "system," against war and against the "system," meaning the "establishment" and the work ethic. They see a new generation suffering from varying degrees of disillusionment coming to an all too swift adulthood, yet afraid and unprepared and often with-out sufficient academic preparation for which they may have only themselves to blame, without even the prospect of gainful employment and dependent upon what many of us regard as an all too beneficent

The relatively simple educational processes of a relatively unquestioning era are long since past and teachers have had to adapt, just as the young people themselves have had to bend with the times. Yet when all is said and done society needs and must encourage the same basic standards that have guided people in the past, the same respect for self-discipline and for work andards which have produced top honors in medicine, for example, for a former Moira secondary school student at Queen's Uni-versity convocation exercises. He is William Bryan Callaghan, of Marysville, who will begin his-internship at Montreal General Hospital on July 1.

Canada's future depends on people like Don Stirling, whom we should think will not be inactive in retirement, and on up and oming young men like Dr. Callaghan, for ne professional skills the country needs the professional skills the country needs and the on-going requirements of a stable society.

Discussion of the Liberal proposals to restrict the number of witnesses appearing before the committee and cut off study be fore-June 19 took place in secresession after the committee's nine Liberal members subvote the six opposition members who wanted the meeting open to the

public and the press.

But New Democrat John Button (Regina East) invited reporters to call after the meetin saying he would tell what we

on. He did.

Mr. Burton said the committre agreed to hear only invited
guinessions by associations or groups—including the Canadian
Manufacturers Association and the Committee for an Independent Canada—but not representations from individuals or corpo-

retions.

Trade Minister Jean Luc
Pepin and Revenue Minister
Herb Gray, author of the controversial government report on
foreign ownership, are to appear today and Friday to state
their nonlitions in faire of the

The meeting further agreed to a five-day limit—expiring at the end of next week-of testimon; by associations and groups.

#### Incentive Grants Continue

Orthwa (Cr) — regional rechands announced in the Commons Wednesday that existing designations of areas qualifying for industrial increasive grants made by his department will continue for 22 or 18 months.

All areas originally designated with the continue for the Regional Development Incentives Act in August, 1989, will maintain their

Special incentive areas, such as Montreal and southeastern Ontario, designated Jan. 1, 1971, will continue to qualify for incentive grants for 12 months—to

Original incentive areas to continue for its months includ an area of Northern Ontario er compassing Feeth Bay, Sud bury, Kapustasing, Th u n de Bay, Eenora and Red Lake.

The areas getting a 12 mont extension to July 1, 1973 include the three southeastern Ontario counties of Glengarry, Scormon and Prescott, including the city

Also extended 18 months, to the end of 1973, are the specialarea designations of Reafrew, Out., and Pembroke. The communities were brought under the incentive program in April, 1970, because of serious unemployment rates.

#### Unit Price Difficult

OTTAWA (CP) — Compulsory unit pricing of supermarket goods would be difficult to alminister and its benefits to shoppers might not outweigh the costs, says a research report of the consumer of the consumer.

The report, released Wechnet edsy, is based on a study of the feablisty and effects of un pricing—the listing of the prico of any product according to airgular unit of measure, alternative easy comparisons, of value for written packages and brands. The pricing system, already to the pricing system, already to the pricing system, already to the product of the produ

## NOTICE

The trachers fet that there are some unanswered questions. We urge you to consider these questions. If you are curious about the answers, we suggest you ask your board member.

- The board says that there is no more money available for teachers' salaries. Why does their proposed budget not take full advantage of 75% provincial government subsidies?
- The board has publicly stated that they value their teachers and feel that they are some of the best in Ontario. Why are they attempting to pay these teachers on one of the lowest salary achedules in the province?
- The board has stated that they wish Prince Edward teachers salari esto be in line with other counties in this region. Why is their "final offer" lower than tipe regional average of settlements to date?
- Last year the board agreed to pay 50% of pre-miums for a group life insurance plan and so stated in a press release. To date they have not lived up to this promise. Is this an indication of the board's attitudes towards its employees? The Board has refused to negotiate further. Teachers are willing to continue negotiations. The board has refused mediation Why?

Simple clay, stone and ash may be purnling elements to associate with a thing of beauty that's been a joy for many a lifetime.

But then, it's a matter of evolation.

And, when the evolution is stamped Royal Doulton, the purie is immediately solved. The famed Royal Doulton figtures for years have been a prize selection among the chinaware creations offered by Street's of Delicetic

The graceful figurines represent a combination of effort, inspiration and skill securingly out of all proportion to their size — until the beholder realizes there is more to beauty than meets the eye.

An authentic Royal Doubton figure embodies more than 180 years of research, skill and artistry in English cera mie craftzmanship

The basic elements are chinclay, Cornish stone and bear ash. But transmuting them intsuch creations as Strong's displays, means much patience obviously affectionate in thleast. Each figure is the inspiration of an artist and is modelled and painted by hand.

### Miami Next

Now that Senator George McGovern has placed himself in the front-running for the Democratic nomination there is specula-tion about his chances when it comes to the real test in November. Assuming that is, that he carries off the Democratic nomination in Miami which seems likely.

In an analysis of McGovern's success thus far, Canadian Press Washington cor-respondent Peter Buckley notes that many respondent Feter Buckley notes that many observers in the capital believe that despite his victories, McGovern "has not been ef-fectively tested at the polls on the basis of

Buckley suggests that superior organ-hation is responsible in large part for Mo-dysern's current pre-eminence in the Dem-ofratic party's camp. That and the availa-bility of larger amounts of campaign money, and he adds, 'There are those who doubt that the blue-collar workers and suburb ites who have increasingly appeared at Mc-Govern rallies really understand where the Senator stands on many of the issues."

As for President Nixon, currently basking in the glow of a more agreeable inter-national climate, for which he is in a large measure responsible, Buckley believes he will have the edge in the Presidential el-

 Acknowledging McGovern supporters claims that their man will be equal to the task, Buckley goes on, "Nevertheless, if Nixtask, Buckley goes on, "Nevertheless, if Nix-on c" v point to a revived economy as well as a successful foreign policy, he will be tough to beat in November. Senator McGovern seems likely to need an unusually discon-tented electorate, ready for drastic changes to build a winning combination of votes."

Chet Huntley, former influential TV newsman who retired a year or more ago to the mountains of Montana, believes Nixon will win. Huntley, now a tourist operator, expressed this view recently when he was visited by the CBC's Ron Smith, Certainly the odds seem to be in favor of Nixon

Maritimes and Prairies To Sell More Supplies

## THIS IS THE MAIN RE COMPETITION GIVES Y THEIR STEEL BE

### At \$55 a tire and up, Uniroyal thinks you should have more reasons.

niroyal wasn't the first to introduce steel-belted tires in Canada. Or even the second. We held off because something was both-

ering us. Especially our engineers.

And that was, "how do you make a steel-belted tire that"ll do everything it should, with-out giving a harsh, stiff ride?"

The answer, months and months later, is

the universal in the universal and monute acter, is the Universal Intersteel. And it was worth wait-ing for Because it's considerably different than everybody else's steel-belted tire, and as a result, we believe considerably better.

### Our construction vs. theirs.

In one respect, all steel-belted tires are the same. They all have steel belts (in mesh form) running around the circumference of the tire.

Among other things, these steel belts pro-vide superb "hazard protection".
Thatis, they make it very difficult for nails, broken bottles and general highway debris to penetrate through the steel and puncture the tire.

the tire.

And that's obviously, all to the good.

What isn't so good or obvious, is that steel, oeing the stiff material it is, one cause a tire to ride somewhat harshly and noisily (especially at speeds under \$5 m.p.h.)

Even more so, we believe, when the steel belts are applied directly against the tread.

So we didn't build the Uniroyal Intersteel

So we didn't build the Uniroyal Interesteel like anybody else's tire. The cutaway section of our tire will show what makes us different. We 'sandwiched' our steel belts between two layers of polyester, so steel isn't jammed right up against the treatment of the tire layer. And the caresse of the tire by a soeond polyester layer.

Tread. Polyester. Steel. Polyester. Instead of just tread, steel, polyester, like everybody else. **Comfort.** 

You don't have to be an engineer to see that you're bound to get a more comfortable ride with a tire built like the Intersteel. It's like putting a cushion on a hard chair

before you sit on it.
You get the benefit of the chair's support plus the comfort of the cushion.

The Uniroyal Intersteel. The reason you've never seen a tire like it before is because there wasn't one.

And in the long run, that's a very important plus. Simply because, it's something else you don't have to worry about.

As promised, however, there are even more reasons for investing in Intersteels.

### Performance.

The next plus is increased performance.

Belts on a tire help prevent a tire from distorting when its moving. In short, they help keep more rubber on the road and allow the tread to fully perform the way it was designed to. Steel belts do a better job of this than any other material. And in our opinion, Intersteel does the best job of all, thanks to the way it's built.

Our polyester layers top and bottom bond our steel belts in place with exceptional firm-ness. Which in turn, helps to hold down the tread even more. The result Greater steering control. Greater skid control. Better traction.

### Mileage.

And last but not least, all of this results, in increased mileage.

In increased mileage.

Because the issue the stress primas when it's moving (and our stee belts plus the precise construction of our pulse leads see see the stress of the s

stubborn engineers hadn't set out to build a better tire than any-body else. And done it.

#### A Sad Case

A Polish woman, Alicia Wiercioch, 36, he committed suicide rather than be de-reted to her homeland, was said to have en asked to leave Canada by the Immigraon Department because "she could not seet our selection criteria." An official is meet our selection criteria. An orderat as quoted as saying she had not scored the re-quired 50 points relating to immigrant skills, fluency with the country's two lang-

es and current employment demands. Yet Mrs. Wiercioch had been here since 1968. Divorced from her engineer husband in Poland, she hated the regime there and was said by a fellow Pole who knew her in Tor-onto to have carried poison with her at all nes to thwart a forced return to Europe.

It is a sad case and it seems a pity that the Immigration Department could not have permitted her to stay (she had only visitor's status) on compassionate grounds at least, while assisting her to find legitimate work, while assisting her to find legitimate work, She had worked in a bakery in 1970 and apently ran foul of the authorities by taking a job without permission while her apon for landed immigrant status w

embers of parliament and ethnic leader. have pointed out, quite rightly, that United States "hippies," some living on welfare, and hoodlums somehow get into Canada and have no difficulty remaining here while hard-working, deserving newcomers

These are anomalies that should be taken into consideration by the Immigration Department. We do not know all the circumstances of course leading up to the de-portation order (issued in September 1970 and later appealed without success), but it is not one in which persons finding selves in similar difficult circumstance es can take any comfort. Lack of fluency in English was evidently not a factor, for a sui-cide note Mrs. Wiercioch left before taking poison read, "Don't push me from Canada."

#### Century of Service

A lot of water has passed under the bridges of the Moira river since Stroud's Jewellery and Gift Shop came into being a century ago. As our special supplement cel-Jeweilery and Guit Snop came into ocus; a century ago. As our special supplement celebrating the occasion points out, 1872 was certainly apple to the century ago. As a certain property of the part to that the Dominion received a lean of 2.500,000 points stering from the Cladstone government in Britain for construction. The progress of Strout's, whose president is Mr. J. A. Blackburn, has kept pace with the evolution of Belleville as a community. Today it is a symbol of the exemption of the continuous control of the continuous control of the control of the

## Pollution and Housing

Pollution in this latter day means many things — among them the blight of poverty and minimum living standards right here in our midst that are little better than the

st overseas.

While new apartments, town hou and sub-divisions have brought progress and the best in contemporary living standards

the best in contemporary living standards for many, those occupying the lower reaches of the economic scale languish in the non-incury that has been their lot for years. This is part of the challenge facing the planners, for we cannot expect the older and more displated buildings in areas like Footer. Ward and Hillerest and in pockets around the city hash forces.

## **Violence Persists**

There must be a law and order problem in Britain akin to the one here, as well as controversy over how to deal with it in the courts, for Britain's Lord Chancellor, Lord m, to say, "Law and right can only exist in an ordered and homogenous con munity supporting common values accepted by far more people than can ever be represented by a mere voting majority, and pre-pared in the last resort to enforce those val- ( ues on those unwilling to embody them in

We quoted these words recently, in the course of an editorial on the problems of men in jails like San Quentin. There was more, as Lord Hallsham commelled the lawyers of the world to see to it that this truth is not forgotten among the clamor of ideologies, the passion and hysteria of demtrators (consider Montreal of late, and acouver and Kitchener in recent days), strators (co the selfishness and nihilism of pre

groups, or the maria abandonment of orun-ary criminals."

These words are worth noting again, for they recognize the mass "orneriness" of large numbers of people around the world loday, a trend which manifests itself in behavior ranging from the dumping of garhavior ranging from the dumping of gar-bage on the steps of City Hall in Montreal, 'abouts of Sieg Hell in Vancouver, to daily bombings and gunfire in Ulster and a mas-sacre at an airport in Israel. Are these people so bedly off, so frustrated by their situ-ation that they must resort to such tactics? Is there no better way? We believe there is, as the Parti Quebecois for example, in Que-bec, has demonstrated, by attracting more and more adherents who have decided that

and more adherents who have decided that the belieb tox is better than the gun.

Unhappily, violence still rules the hearts of a multitude of others around the world and when it persists, as it does in Ulster, we have to conclude that a deeply-rooted per-versity is as much if not more responsible

and women is persone, so the construction of the hard to conclude that a copy of the property of the property

True | False |

4. The older the whisley, the better the whisley. True | False |

There's no magic age for whishy. Sure, it has to be at least a few years old, but there is such a thing as too old. You see, the whishy you drink is really a blend of many swinkies. To get the best flavour in the finance product, each separate whishy must be at its flavour peak. No one age is perfect because each whishy has an optimum age which

depends on what went into it. A period of ripeness, if you will. Before which it's not quite smooth enough and after which it tends to taste woody and bitter. BERRY TIME
If the weather holds out, next
week should be the peak week
for our Ontario strawberries,
with some lasting into the week
of July 3rd.
. So be prepared with favorite
strawberry recipes, and with >
your freezing, jamming and
preserving needs,
Hy Miracle Food Mart con- sumer bulletin this week
gives a number of my favorite
strawberry recipes, Se sure

## The World's Needs

The World's Needs
The President of Mexico, Luis Exhevaria Alvarse, reflecting a deep concern
for humanity, had some strong words for the
big powers when he was greeted by President Ritton in Washington recentle
the Mexican leader in effect told the
big powers to shop trying to run the world
which, when you think of it, is precisely
what it to Diluted States and the Soriet Unwhat the Diluted States and the Soriet Un-

what the United States and the Soriet Un-ion have been doing for year. He drama-thed his point by having at his side as he spoke, along with President Mixon, two young women from the welcoming crowd. Each had a child in her arms and Mr. Alvar-es asked what kind of world awalted these "beautiful young women" and their child-ren.

"Beautinity young women has some time.

- An overhead cam engine that's much bigger than the engines in the three top selling economy imports.
- Front disc brakes that are power assisted.
- Your choice of either a 4-speed floor shifter or an optional 3-speed automatic transmission.
- Richly upholstered bucket seats.
- Deep-pile carpeting, padded armrests, padded dash and visors.
- And other luxuries like a cigarette lighter, rear seat ashtrays, full-length paint striping and an inside hood release.

You also get the advantages of dealing with a Pontiac dealer, somebody who knows what dealing is all about. And he knows that the main reason you're buying a small car is because of its economy. So he'll offer you a deal to match.

#### Smoky Nostalgia

Last year, steam train buffs bade farewell to Canada's last operating steam locomotive— CN 6218. After relicrement ceremonies in Belleville, it headed full steam down the tracks, into the pages of history. This picture was taken east of Foxborn on the Marmora ore train lines. Meanwhile,

Canadian National says it is restoring an oil-fired mountain style loco for regular scenic excursions. Distinguished, by its cone-shaped nose and green-trimmed paneis, CN's 5000 is of a style marked as a favorite type of North American steam locomotive by railroad buffs.

### Senior Citizens

Norm Caims, the retired armed forces officer who directed the study of Belleville's senior citizens, can claim with justification that the report released recently is a pattern

that the report released recently is a pattern for every community in Canada. As the city's 4,000 redefined over 60 years contains a wealth of information which, given pre-cised effect, should improve immessurably the wellbeing and so-called quality of life of the elderly here and across Canada. Some of the findings and resulting re-

commendations confirm what many concern-ed people have been aware of all along, that while a surprising number — 65 per cent of those interviewed — are unworried about their health, it is a prime concern of others.
Fifty-two per cent are said to suffer from
chronic aliments, principally high blood
pressure, heart trouble and arthritis. Financial worries in these inflationary times are also paramount for some and it is disturbing to learn from the report that because public utilities bills are mailed only a week

and to learn from the report that because he public utilities this are mailed only a week before government choques are sent out september of the prompt payment discount.

The report of the sent of the prompt payment discount.

Perhaps this has been corrected by now, but it may be appreciated that crough without the compart of the prompt payment discount.

Perhaps this has been corrected by now, but it may be appreciated that crough without loding such an opportunity as this to conserve a dollar or two. Recogniting the continuous control to the payment of the control to the control to

Now Avis has something better for renters who like to save money. The better \$5-a-day car. By better we mean ours have extras. Like automatic transmission, radio, whitewall tires, power steering on many models. They're yours for \$5 a day plus gas and mileage when you rent at any of our locations. We offer you a choice of \$5-a-day cars priced at either 13¢ a mile (e.g. Plymouth Duster) or 10¢ a mile (e.g. Dodge Colt) both plus gas. Sorry, \$5 cars not available in some smaller cities.

New Belleville location:

#### What's A Million

Wealth and professional sport are the of hoddles. The solfer, the lockey, the six player, the auto racer and of course lockey player can become wealthy be-id the capacity of any 9 to 5 plodder, 800 a year Prime Minister of most bus-

hossimm.

We see for instance that Bobby Hull, who not since his schooldays here in Belleville has had to count any pennies, has most from the financialty horsaltry years with the Chicago Black Hawks to even greater monetary reward as player-ouch for the Winnings Jets of the World Hockey Association.

If the bdy from Point Anne is not a mil-lionaire already his initial cheque from the WFA affords him that states. We wonder just how many times in history an individual has been handed a certified cheque for \$1

Million. What to some can be a burden appears to not lightly, however, on Hull's shoulders. He supports his wife and family and he rables cattle. We understand he sold his Big Libland interests a while back but is now said to be looking for ranch properly for his new houses in Meridde

nome in Manitoba.

A return to home soil should have other benefits, such as a safer atmosphere than Chicago and a more wholesome environment in general than that of the big cities of the United States.

#### ... The Money Bit

What shout that older aspect of wealth—when it can be a burden? Like songwriter Gene MacLelian (Snowthrd and older hits) who has divested himself of his business interests and has left his Prince Reward Island farm home to wander around Europe with wife Claudia.

Among those receiving their citizenship,
were four Americans and we are reminded
that immigrants from the United States,
in the last returns available, had topped
those from the British Isles for the first
time. With only a tenth of the propulation of
truth, within only a tenth of the propulation of
truth grieghton we have in many ways—
or last propulation of the propulation of
social climate. With the help of our new
elitizens we must work to keep it that way
— or pay a heavy price if we fall.
